NATIONAL CONFERENCE
ON

“NEXT GENERATION NUTRITION”

Venue : Conference Hall

Date : 27th September 2019

Time : 10.00 A.M

Organized by
DEPARTMENT OF NUTRITION AND DIETETICS

ABOUT THE INSTITUTION

“Empowering women, Empowering the Nation”. Higher education, especially to women, empowers not only the family but also the nation. Hence, higher education to women is often emphasized as a mission of capacity building of the nation. The significance of this aspect has been rightly recognized and there has been a paradigm shift in the scenario of women education in the urban area. Nevertheless higher education to women in the rural area needs encouragement, as the main source of income of their parents is agriculture and the per capita income is relatively very low. In this context, “Sengamala Thaayar Educational Trust (STET) women's college” was established at sundarakottai, a hamlet in Thiruvavur District, in the year 1994 by Thirumathi Krishnaveni Vivekanandham, who entrusted the task of nurturing the institution to her illustrious son Dr. V. Dhivaharan as the correspondent. The correspondent with yonder vision for promoting higher education to women students in this backward area set goals to achieve the target. Sengamala Thaayar Educational Trust Women's college is recognized as one of the foremost educational institutions in India. It has been accredited by the NAAC 'A' grade (CGPA of 3.45 out of 4.00). It is an institution of ISO 9001:2015 standards certified one. The internal Quality Assurance cell (IQAC) of the college is extremely active and evolves strategies and actions to achieve the goal of the institution. It's a 'Mentor' institution to facilitate the non accredited institutions to get accredited themselves, as recognized both by the UGC and NAAC.

ABOUT THE DEPARTMENT

The Department of Nutrition & Dietetics is the premier department teaching Food and Nutrition science related subjects, with a reputation for more than sixteen years. The Department offer, Undergraduate programme in Nutrition & Dietetics (N&D) and postgraduate programme in Food Service Management and Dietetics (FSMD). The focus area of research of the Department is mainly on the Fundamental Scientific Principles and their application to ensure and address the concerns of the consumers, industry and government. Students are ultimately motivated to demonstrate applied excellence in their specialized area, as well as professionalism, flexibility, the ability to adapt to team work situations, creativity and innovation towards a food product development. This programme is designed to provide intensive practice with regard to dietetic and food industry with ultimate motive of preparing the students as a quality human resource in the vibrant and expanding sector of food, food safety and food security. The graduate and postgraduate students of this Department have the imprints of their footsteps at various capacity across the field as dietician in reputed multispecialty hospitals and as academicians.

ABOUT THE CONFERENCE

The objective of the conference is to provide a platform to the Research Scholars, Academicians and Scientists of the department of Nutrition and Dietetics, Microbiology, Biochemistry and Biotechnology from affiliated Colleges, Universities, Research Organizations and Industries, to meet and share the cutting edge development in the field, and the National Conference on “Next Generation Nutrition” is the mission to achieve the objective of bringing the young scientists, students and faculty members together as a step forward for the better understanding of the nutrition throughout our life on growth, development and current challenges of nutrition, to find solutions and ensure food security.

THRUST AREAS

- * Nutrition across the life course
